

CONTENT MONETIZATION MODELER

By:VijayKarthik S.K

TOOLS:

- Python
- Pandas
- Streamlit

ML Models:

- Linear Regression
- Decision Tree
- Random Forest
- Gradient Boosting
- XGBoost

Evaluation Metrics:

- R^2 (Coefficient of Determination)
- RMSE (Root Mean Square Error)
- MAE (Mean Absolute Error)

Output:

- Trained and validated multiple regression models
- Fully functional Streamlit application
- Ready for real-world use in revenue estimation tasks
